

CONFERENCE

Innovation in environmental protection

4/6/2024 - PROTECTION OF ECOSYSTEMS

8:00 - 9:00

Registration of participants

9:00 - 9:30

The commencement of the conference

- Norwegian Environment Agency - involvement in international cooperation

9:30 - 11:10

Aquatic ecosystems

Innovation and application of the method of incubation of eggs of endangered fish and lamprey species in the environment of maternal streams/University of Ostrava - Stanislav Ruman

Nature-friendly fisheries management as a tool for protecting valuable pond ecosystems/ENKI o.p.s. - Marek Baxa

Floating islands - support of biodiversity and water quality/Czech Society for Ornithology - South Moravian Branch - Tereza Čamlíková

Application of innovative procedures in the eradication of invasive crayfish in the Czech Republic/T. G. Masaryk Water Management Research Institute - Pavel Kožený

Estonia: Prevention and control of non-indigenous species of crayfish in Estonian freshwaters/Estonian University of Life Sciences - Katrin Kaldre

11:10 - 11:30

Space for questions regarding projects

11:30 - 11:50

Coffee break

Norway grants

Working together for a **green** Europe

STATE ENVIRONMENTAL
FUND OF THE
CZECH REPUBLIC

11:50 - 13:10

Biodiversity

Be plant wise, do not support invasive species/Czech University of Life Sciences Prague - Kateřina Berchová

Elimination of invasive species in practice/Czech University of Life Sciences Prague - Kateřina Berchová

Regional seed mixtures as an effective tool for protecting the diversity of grassland habitats/Czech Union for Nature Conservation - Tereza Štochlová

Implementation of floating green islands to improve nesting conditions for waterfowl and strengthen the biodiversity of pond ecosystems/Czech University of Life Sciences Prague - Zuzana Musilová

13:10 - 13:30

Space for questions regarding projects

13:30 - 15:00

Lunch

15:00 - 16:40

Country management

Slovakia: Wetlands for Life and Prosperity: Restoring a Ramsar Site in the Alluvium of the Morava River/Green Foundation - Jana Tothová

Norway: NINA - Norwegian Institute for Nature Research - Camilla Næss

MOSPREMA: Prediction and management of mosquito calamities for biodiversity conservation in floodplain forests/Palacky University Olomouc - Jan Brus

Pilot farm Amalia - application of the Smart Landscape concept/ Czech University of Life Sciences Prague - Petr Máca

Kosteliska: bird parks as a tool for biodiversity protection/Czech Society for Ornithology - South Moravian Branch - Tereza Čamlíková

16:40 - 17:00

End of the conference, coffee, discussion
